

FOREST RENEWABLE MATERIALS/ART AND DESIGN, ASSOCIATE OF SCIENCE

Renewable Materials is a multidisciplinary program that prepares students to work with renewable, plant-based materials to solve challenging world problems. Renewable materials such as wood, bamboo, canes, and agricultural fibers are examined to understand their characteristics and how to make useful products. Students gain broad perspectives on current issues associated with the sustainable utilization of renewable materials, including global trade, business innovation, energy production, and environmental impacts.

Students in the art and design option are concerned about wood products on an aesthetic level. This option prepares students to engage with renewable materials on an aesthetic level, whether as interior designers, fine artists or entrepreneurs. Students will gain an in-depth knowledge of how renewable materials can function visually within the human space. In addition, students will achieve an understanding of green building materials and green architecture.

This degree was designed to transfer to Oregon State University's College of Forestry. Other transfer options may be available, consult your advisor for details. Check out the Forestry/Natural Resources program website!

The forestry field is projected to have many career opportunities coming up in the next decade as many forestry and natural resources professionals retire in the next few years. Students who enjoy working outdoors and want to have a career that focuses on managing our valuable forest lands to conserve and protect resources as well as produce valuable products for society should consider this degree.

GRADUATION REQUIREMENTS

Students must complete a minimum of 90 credit hours with a cumulative Grade Point Average (GPA) of 2.0 or better. All courses must be completed with a grade of 'C' or better. Twenty-four (24) credits must be completed at Southwestern before the AS degree is awarded.

Courses that are developmental in nature, (designed to prepare students for college transfer courses), are not applicable to this degree.

Complete the graduation application process one term prior to the term of completion (e.g., spring term graduates must apply during winter term).

PROGRAM STUDENT LEARNING OUTCOMES

Upon successful completion of this program, the student will be able to:

- Demonstrate fundamental knowledge of wood and similar renewable materials that make them challenging to utilize as industrial and building materials.
- Demonstrate command of renewable material moisture content and specific gravity calculations.
- Demonstrate ability to find, compile, analyze, and communicate technical communication.

- Demonstrate familiarity with the diverse complexity of the Renewable Materials industry, and the challenges it faces with balancing business and environmental goals.
- Demonstrate a combination of technical and business acumen that allows effective management of process and people.
- Demonstrate ability to creatively self-direct learning outcomes within the classroom environment and/or through independent undergraduate research.
- Gain information and knowledge to become a better global citizen.

PRE-PROGRAM COURSES

Students are required to take the following courses *prior to* the program courses, depending on students' college placement information. See advisor for details:

Code	Title	Credits
CIS90	Computer Basics (or demonstrate proficiency)	2
MTH95	Intermediate Algebra (or placement in higher math course)	4
WR90R	Academic Literacy (or placement in higher writing course)	4

PROGRAM GUIDE

Course	Title	Credits
First Year		
Fall		
CHEM221	General Chemistry I	5
F111	Introduction to Forestry	4
WR121	English Composition	3
Specific Elective ¹		4
		Credits
		16
Winter		
CHEM222	General Chemistry II	5
CIS125S	Spreadsheet Applications	3
F250	Forest Biology	4
F280	CWE: Forestry ⁶	1
or NR280	or CWE: Natural Resources	
Specific Elective ¹		3
		Credits
		16
Spring		
SP111	Fundamentals of Public Speaking	3
WR227	Report Writing	3
PE231	Wellness for Life	3
	Difference, Power, and Discrimination ²	3
Specific Elective ¹		3
		Credits
		15
Second Year		
Fall		
ART115	Basic Design I Intro to Elements of Art and Principles of Design	4
ART131	Introduction to Drawing I	3
ART291	Sculpture	3
CIS125P	Presentation Applications	1

Literature and Arts ³	3
Credits	14
Winter	
ART110 Digital Photography I	3
MTH243 Intro to Probability and Statistics	4
F180 Internship: Forestry ⁶	3
or NR180 or Internship: Natural Resources	
Social Processes and Institutions ³	3
Credits	13
Spring	
ART117 Basic Design III, Intro to 3D Design	4
ART232 Drawing II	3
CIS125IL Computer Applications: Illustrator	3
Cultural Diversity ⁴	3
Specific Elective ¹	3
Credits	16
Total Credits	90

¹ A total of 13 credits of F or NR courses not already required for the degree may be taken in any term.

² Difference, Power, and Discrimination - options: HST201, HST202, HST203, SOC206, SOC213

³ Literature and the Arts: ART204, ART205, ART206, ENG104, ENG105, ENG106, ENG107, ENG108, ENG109, ENG201, ENG204, ENG205, ENG206, ENG262, MUS201, MUS202, MUS203.

⁴ Cultural Diversity: ANTH224, ANTH230, ANTH231, ANTH232, HST104, HUM204, HUM205, HUM206

⁵ Social Processes and Institutions: ANTH221, ANTH222, ANTH223, ECON201, ECON202, HST101, HST102, HST103, PS201, PS205, PSY201, PSY202, PSY203, SOC204, SOC205 will satisfy this requirement.

⁶ Schedule an appointment with the Internship Coordinator a month prior to term. 541-888-7405.

* All Honors courses may substitute for their equivalent requirements.
