

NATURAL RESOURCES, ASSOCIATE OF SCIENCE

Southwestern's Natural Resources program provides students with an introduction to the technical and scientific knowledge related to natural resource policy and management. Students can prepare for careers in natural resource planning, management, conservation and education roles with government agencies, non-governmental organizations and in educational settings.

The program guide lists the required courses for the AS degree. The program guide also lists recommended electives appropriate for the field. For more info, view the Southwestern's Forestry/Natural Resources webpage.

Southwestern has a formal articulation agreement with Oregon State University (OSU) aligning this AS Natural Resources degree with OSU's Natural Resources Bachelor of Science degree, Watershed Management option. Students that complete the AS degree with Natural Resources emphasis at Southwestern will satisfy most lower division courses required for the bachelor's in Natural Resources, Watershed Management option.

Following completion of the AS Natural Resources degree, students may transfer to OSU with 90 or more credit hours (up to 124 can be transferred). Southwestern courses in the AS Natural Resources are listed in the articulation agreement. AS Natural Resources graduates transferring to OSU have junior standing with only (a) upper division Synthesis and WIC requirements of the Baccalaureate Core to be completed, and (b) upper division courses associated with the Natural Resources degree program. For specific details on the articulation of these degrees see the University Center staff.

GRADUATION REQUIREMENTS

Students must complete a minimum of 104 credit hours with a cumulative Grade Point Average (GPA) of 2.0 or better. All courses must be completed with a grade of 'C' or better. Twenty-four (24) credits must be completed at Southwestern before the degree is awarded.

Courses that are developmental in nature, (designed to prepare students for college transfer courses), are not applicable to this degree.

Complete the graduation application process one term prior to the term of completion (e.g., spring term graduates must apply during winter term).

PROGRAM STUDENT LEARNING OUTCOMES

Upon successful completion of this program, the student will be able to:

- Integrate technical "field" skills with analytical skills to identify important natural resources problems and begin to identify effective solutions for these problems.
- Acquire knowledge regarding a range of natural resources current issues, social and political components of resource management.
- Work with experts in a variety of natural resource fields.

- Apply watershed management principles and practices to actual natural resources issues and problems to develop plans and solutions.

PRE-PROGRAM COURSES

Students are required to take the following courses *prior* to the program courses, depending on students' college placement information. See advisor for details:

Code	Title	Credits
CIS120	Concepts of Computing	4
MTH111	College Algebra	4
or MTH111H	College Algebra w/Honors	
WR90R	Academic Literacy (or placement in higher writing course)	4

PROGRAM GUIDE

Course	Title	Credits
First Year		
Fall		
BI101	General Biology	4
CHEM221	General Chemistry I	5
MTH112	Trigonometry	4
or MTH112H	or Trigonometry w/Honors	
NR201	Managing Natural Res for the Future	3
WR121	English Composition	3
or WR121H	or English Composition w/Honors	
Credits		19
Winter		
BI102	General Biology	4
G202	Physical Geology II ¹	4
PHL102	Ethics	3
WR227	Report Writing	3
Required Program Course - English Literature ²		3
Credits		17
Spring		
BI103	General Biology	4
MTH243	Intro to Probability and Statistics	4
NR180	Internship: Natural Resources ³	1-3
NR260	Watershed Processes	4
PE231	Wellness for Life	3
Credits		16-18
Second Year		
Fall		
ENV235	Introduction to Soil Science	4
G201	Physical Geology I ¹	4
PH211	General Physics with Calculus I	5
GEOG265	Intro to Geographical Info Systems	4
MTH251	Calculus I Differential Calculus	4
or MTH251H	or Calculus I w/Honors	
Credits		21

Winter

ECON201	Microeconomics	4
F222A	Elementary Forest Surveying	4
F250	Forest Biology	4
MTH252 or MTH252H	Calculus II Integral Calculus or Calculus II w/Honors	4

Credits	16
---------	----

Spring

F241	Dendrology	5
GEOG209	Physical Geography Weather/Climate	4
HST203	History of the United States	3
SP111	Fundamentals of Public Speaking	3

Credits	15
---------	----

Total Credits	104-106
---------------	---------

¹ This requires a corequisite G145 or G025 Field Trip course. Ask your advisor for details.

² English Literature options: ENG104, ENG105, or ENG106.

³ Schedule an appointment with the Internship Coordinator to schedule a month prior to term. 541-888-7405.

* All Honors courses may substitute for their equivalent requirements.

The following course combinations are recommended, but are not part of the degree.

Code	Title	Credits
ANTH230	Native North Americans: Oregon	3
ANTH231	Native North Americans: PNW	3
ANTH232	Native North Americans	3
SOC206	Social Problems and Issues (Take one of the above listed Anthropology courses and this course.)	3
