## ELEMENTARY EDUCATION, ASSOCIATE OF ARTS OREGON TRANSFER

The Associate of Arts Oregon Transfer Elementary Education (Elementary Education AAOT) is a prescriptive degree that identifies the optimal and specific set of community college courses students need to take to transfer efficiently into an Elementary Education program at Oregon universities. It is important to note the AAOT may not be the best degree option for all majors. Students should consult advisors in their major areas for educational planning related to required courses in their majors.

## GRADUATION REQUIREMENTS

Students must complete a minimum of 90 credit hours. All courses must be completed with a grade of ' C ' or better. Students must have a cumulative GPA of 2.0 at the time the AAOT is awarded. Twenty-four (24) credits must be completed at Southwestern before the degree is awarded.

Students must successfully complete the following courses from the list of approved general education courses for the AAOT degree and a number of elective credits.

Students may take any college-level course that would bring total credits to 90 quarter hours, including up to 12 credits of college-designated career and technical education (CTE) courses. Note: Some courses are considered career technical courses and have limitations within this degree, they are designated with "CTE" in the Course Description area of this catalog. A maximum of nine (9) credits of PE1 85 sport/activity courses may be applied to the AAOT degree. All Honors courses may substitute for their equivalent requirements.

Courses that are developmental in nature (designed to prepare students for college transfer courses) are not applicable to this degree.

Students must complete the graduation application process one term prior to the term of completion (e.g., spring term graduates must apply during winter term).

## STUDENT LEARNING OUTCOMES

Student learning outcomes for this degree can be found by clicking here.
Math and writing placement are unique to each student and are determined during the admissions and intake advising process. Additional math or writing courses may be required prior to taking the math or writing program requirements in this degree. For more information on placement methods used, visit our college placement policy here.
